

## **COMMITMENT TO CONSERVATIVE MEASURE 3.1(a) SHARK FINNING POLICY**

RS Cannery Company Limited does not endorse the practice of shark finning, the retention of any fins while discarding the carcass at sea, and require that any sharks retained must be landed with fins naturally attached. We only purchase from vessel-owners that have a published set of shark finning policies that align with ours. We do not purchase from any vessel that have been found to have finned in the past 2 years.
