

November 30, 2023

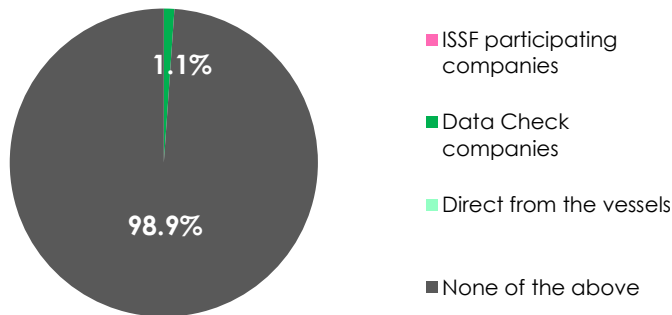

As a member, RS Cannery strongly supports all initiatives undertaken by ISSF. In compliance with ISSF Conservative Measurement 2.4, RS Cannery has committed to report the amount of fish we source from following categories.

Purchasing percentage by Fishery Source categories

For tuna sourced during Q4 2022 – Q3 2023, 34.8% was from MSC certified fisheries and 17.6% was from Comprehensive FIPs scoring A, B or C. Balance 47.6% was from non-MSC and non-FIP fisheries.

Purchasing percentage by Supplier Source categories

1.1% of the tuna sourced during Q4 2022 – Q3 2023 were from the ISSF Data Check company. Balance 98.9% were from none of the above.

RS Cannery has made it a priority to reduce its purchase from “None of the above” in both categories within 2024.
